S. 36

Dear Customer,

Spring is a season of renewal, change, and fresh energy – a time when much is set in motion and transformation is in the air. This spirit of change is not only visible in nature but also reflected in society and the economy. Many topics are currently in flux, new developments are gathering pace, and cautious optimism is opening the door to new international partnerships. Only growth still requires a little patience. At BOLTZE, we’ve taken this spring as an opportunity to think afresh and move forward with new ideas.

For the Spring/Summer 2026 season, we’ve completely reimagined our showroom concept in Braak – now featuring an open-plan design at the front and clearly structured concept displays in the second showroom. This new layout offers both orientation and inspiration. In addition, we are excited to present our first-ever curated capsule collections: “Mocha Mousse” and “Modern Chrome”, both showcasing trend-forward colour palettes in a compact and stylish product selection. New ranges such as “Pet Lovers” – accessories for animal enthusiasts within our “White House” theme – as well as our trend labs “Sunrise Festival”, with vibrant, summery festival accessories, and “Ramadan Kareem”, featuring festive décor for the Muslim month of fasting, further enrich the diversity of our collection. These product groups are seeing increasing demand.

As you can see, there’s a lot for you to discover! I warmly invite you to be inspired by fresh colours, diverse themes, and innovative concepts. I wish you great pleasure as you browse, explore, and plan – and I hope our new collections will also captivate your customers.

Warm regards,

Adrian Boltze
